QAP-1 - Header section

Feature	Scenario	Steps	Test Result
Header section	View the full name in the Header section regression	Given the recruiter is on the candidate's portfolio web When the recruiter visits the Header section Then the recruiter should see the candidate's full name "Janira Huesca"	Passed
Header section	View the title in the Header section regression	Given the recruiter is on the candidate's portfolio web When the recruiter visits the Header section Then the recruiter should see the candidate's title "QA Specialist"	Passed
Header section	Visit the LinkedIn link regression	Given the recruiter is on the candidate's portfolio web And the recruiter visits the Header section When the recruiter clicks on the LinkedIn link Then the recruiter should be redirected to the candidate's LinkedIn profile "https://www.linkedin.com/in/janirahuesca"	Passed
Header section	Visit the GitHub link	Given the recruiter is on the candidate's portfolio web And the recruiter visits the Header section When the recruiter clicks on the GitHub link Then the recruiter should be redirected to the candidate's GitHub project "https://github.com/JaniraHuescaQA/qaportfolio"	Passed

QAP-2 - About Me section

Feature	Scenario	Steps	Test Result
About Me section	View the brief description in the About Me section regression	Given the recruiter is on the candidate's portfolio web When the recruiter visits the About Me section Then the recruiter should see the candidate's brief description "Psychologist with over 9 years of HR experience, specializing in recruitment. Gained expertise in technology and industrial sectors, and developed interest in IT and QA through agile methodologies. Earned two ISTQB certifications and completed Advanced Technician in Multiplatform Application Development (May 2024). Currently pursuing further training, including a QA bootcamp."	Passed

Feature	Scenario	Steps	Test Result
		Seeking a QA role, offering both technical knowledge and experience, alongside strong communication and problem-solving skills."	
About Me section	View the list of soft skills in the About Me section	<p>Given the recruiter is on the candidate's portfolio web</p> <p>When the recruiter visits the About Me section</p> <p>Then the recruiter should see the candidate's soft skills</p> <ul style="list-style-type: none"> soft skills Communication Problem-Solving Teamwork Adaptability Attention to Detail 	Passed

QAP-3 - Projects section

Feature	Scenario	Steps	Test Result
Projects section	View the GitHub projects in the Projects section	<p>Given the recruiter is on the candidate's portfolio web</p> <p>When the recruiter visits the Projects section</p> <p>Then the recruiter should see the candidate's projects with the following information: title, role, description and tools of each project</p> <ul style="list-style-type: none"> title role description tools Portfolio Web QA and Web Development Developed a responsive web portfolio using HTML5 and CSS3, with version control managed via GitHub. Managed the project with Jira following Agile Scrum methodology. Designed test cases using Gherkin and BDD principles. Executed manual functional and regression tests across desktop and mobile platforms, tracked results with a test management tool, and reported and resolved bugs using Jira. BDD, Gherkin, Test Design, Test Execution, JIRA, Agile Methodology (Scrum), Visual Studio Code, HTML5, CSS3, GitHub Automation First Project QA Automation This repository contains a testing framework for automating tests on various web applications using Selenium WebDriver, SpecFlow, and NUnit. This exercise was completed as part of a selection process for a QA automation position and marked my first experience with automation. Selenium WebDriver, SpecFlow, NUnit, C#, BDD, Gherkin, Page Object Model, GitHub 	Passed
Projects section	Visit the links to GitHub projects	<p>Given the recruiter is on the candidate's portfolio web</p> <p>And the recruiter visits the Projects section</p> <p>When the recruiter clicks on the link to GitHub's project</p> <p>Then the recruiter should be redirected to the selected project's GitHub page</p> <p>Examples:</p> <ul style="list-style-type: none"> project url 	Passed

Feature	Scenario	Steps	Test Result
		Portfolio Web https://github.com/JaniraHuescaQA/qaportfolio Automation First Project https://github.com/janirahuesca/AutomationChallenge	

QAP-4 - Education section

Feature	Scenario	Steps	Test Result
Education section	View the education in the Education section regression	Given the recruiter is on the candidate's portfolio web When the recruiter visits the Education section Then the recruiter should see the candidate's studies with the following information: title, institution name and the year of completion title institution year Manual and API QA Bootcamp Bootcamp QA 2024 CFGS Multiplatform Application Development IES Pla de l'Estany 2024 ISTQB Certified Tester Foundation Level - Agile Tester iSQI (International Software Quality Institute) 2021 ISTQB Certified Tester Foundation Level 3.1 iSQI (International Software Quality Institute) 2021 Master in Human Resources Management CEF (Centro de Estudios Financieros) 2011 Degree in Psychology Universitat de Barcelona 2009	Passed

QAP-5 - Contact section

Feature	Scenario	Steps	Test Result
Contact section	View the contact form in the Contact section regression	Given the recruiter is on the candidate's portfolio web When the recruiter visits the Contact section Then the recruiter should see the contact form with the following mandatory fields: email, subject and comments	Passed
Contact section	Fail to submit the contact form with missing	Given the recruiter is on the candidate's portfolio web And the recruiter visits the Contact section When the recruiter leaves the email field blank or	Passed

Feature	Scenario	Steps	Test Result
	email required field regression	<p>empty</p> <p>And the recruiter fills in the subject field with "Interview scheduling"</p> <p>And the recruiter fills in the comments field with "What availability do you have for an online interview?"</p> <p>And the recruiter clicks on the submit button</p> <p>Then the contact form shouldn't be submitted</p> <p>And the following error message should be displayed "Please enter a valid email address"</p>	
Contact section	Successfully submit the contact form regression	<p>Given the recruiter is on the candidate's portfolio web</p> <p>And the recruiter visits the Contact section</p> <p>When the recruiter fills in the email field with "recruiter@domain.com"</p> <p>And the recruiter fills in the subject field with "Interview scheduling"</p> <p>And the recruiter fills in the comments field with "What availability do you have for an online interview?"</p> <p>And the recruiter clicks on the submit button</p> <p>Then the contact form should be submitted successfully</p>	Passed
Contact section	Fail to submit the contact form with missing comments required field	<p>Given the recruiter is on the candidate's portfolio web</p> <p>And the recruiter visits the Contact section</p> <p>When the recruiter fills in the email field with "recruiter@domain.com"</p> <p>And the recruiter fills in the subject field with "Interview scheduling"</p> <p>And the recruiter leaves the comments blank or empty</p> <p>And the recruiter clicks on the submit button</p> <p>Then the contact form shouldn't be submitted</p> <p>And the following error message should be displayed "Please write your message"</p>	Passed
Contact section	Fail to submit the contact form with an invalid email format regression	<p>Given the recruiter is on the candidate's portfolio web</p> <p>And the recruiter visits the Contact section</p> <p>When the recruiter enters an email with an incorrect format in the email field</p> <p>And the recruiter fills in the subject field with "Interview scheduling"</p> <p>And the recruiter fills in the comments field with "What availability do you have for an online interview?"</p> <p>And the recruiter clicks on the submit button</p> <p>Then the contact form shouldn't be submitted</p> <p>And an error message should be displayed</p> <p>Examples:</p> <p> Email Message </p> <p> invalid-email Please enter a valid email address </p> <p> user@.com Please enter a valid email address </p> <p> @example.com Please enter a valid email address</p>	Passed

Feature	Scenario	Steps	Test Result
		 user@domain..com Please enter a valid email address	
Contact section	Fail to submit the contact form with missing subject required field	<p>Given the recruiter is on the candidate's portfolio web And the recruiter visits the Contact section When the recruiter fills in the email with "recruiter@domain.com" And the recruiter leaves the subject field blank or empty And the recruiter fills in the comments field with "What availability do you have for an online interview?" And the recruiter clicks on the submit button Then the contact form shouldn't be submitted And the following error message should be displayed "The subject is required"</p>	Passed
Contact section	Subject field restricts input to a maximum of 40 characters	<p>Given the recruiter is on the candidate's portfolio web And the recruiter visits the Contact section When the recruiter enters text in the subject field longer than 40 characters subject This subject is intentionally long and exceeds the character limit set in the form. Then the subject field should not allow more than 40 characters</p>	Passed
Contact section	Comments field restricts input to a maximum of 500 characters	<p>Given the recruiter is on the candidate's portfolio web And the recruiter visits the Contact section When the recruiter enters text in the comments field longer than 500 characters comments Lorem ipsum dolor sit amet, consectetur adipiscing elit. Ut placerat nisi at neque efficitur bibendum. Suspendisse tellus felis, molestie et nisi vitae, commodo facilisis sapien. Nulla nisl orci, elementum at aliquet in, lobortis sit amet tellus. Sed varius ante eleifend neque viverra tristique. Fusce pretium tortor a blandit vestibulum. Etiam est est, porttitor nec semper in, ullamcorper placerat nisi. Integer nec porta magna. Aliquam cursus purus quis turpis tincidunt tincidunt. Sed a posuere mauris. Then the comments field should not allow more than 500 characters</p>	Passed

QAP-14 - Projects section - Adding API Testing project

Feature	Scenario	Steps	Test Result
Projects section	View the GitHub projects in the Projects section, including the Jira API Testing project regression	<p>Given the recruiter is on the candidate's portfolio web When the recruiter visits the Projects section Then the recruiter should see the candidate's projects with the following information: title, role, description and tools of each project title role description tools Jira API Testing QA Developed an automated testing suite for JIRA API comment endpoint using Postman. Utilized the JIRA API token for authentication and implemented tests to cover retrieving, adding, updating, and deleting comments. Designed test cases to validate successful operations, error handling for authentication and invalid data, and response code verification. Automated test execution and report generation with GitHub Actions and Newman. Postman, Newman, GitHub Actions, GitHub, JIRA API Token, JIRA API Documentation Portfolio Web QA and Web Development Developed a responsive web portfolio using HTML5 and CSS3, with version control managed via GitHub. Managed the project with Jira following Agile Scrum methodology. Designed test cases using Gherkin and BDD principles. Executed manual functional and regression tests across desktop and mobile platforms, tracked results with a test management tool, and reported and resolved bugs using Jira. BDD, Gherkin, Test Design, Test Execution, JIRA, Agile Methodology (Scrum), Visual Studio Code, HTML5, CSS3, GitHub Automation First Project QA Automation This repository contains a testing framework for automating tests on various web applications using Selenium WebDriver, SpecFlow, and NUnit. This exercise was completed as part of a selection process for a QA automation position and marked my first experience with automation. Selenium WebDriver, SpecFlow, NUnit, C#, BDD, Gherkin, Page Object Model, GitHub </p>	Passed
Projects section	Visit the links to GitHub projects, including the Jira API Testing project	<p>Given the recruiter is on the candidate's portfolio web And the recruiter visits the Projects section When the recruiter clicks on the link to GitHub's project Then the recruiter should be redirected to the selected project's GitHub page</p> <p>Examples: project url Jira API Testing https://github.com/JaniraHuescaQA/qaportfolio Portfolio Web https://github.com/JaniraHuescaQA/qaportfolio Automation First Project https://github.com/janirahuesca/AutomationChallenge </p>	Passed
