| <div><div></div></div> | QAP-12 | Comments field has a different name in Contact section | DONE | <div><div>Steps to reproduce:</div><div><div>1. Given the recruiter is on the candidate's portfolio web</div><div>2. When the recruiter visits the Contact section</div></div><div><div>Actual results:</div><div><div>1. Then the recruiter sees the contact form with three text boxes: one with the text "email", another with the text "subject" and another with the text "Your message"</div></div></div><div><div>Test KO</div><div><div><div><div><div>Contact</div><div><div>Email</div><div>Subject</div><div><div>Your message</div></div></div><div><div>Send message</div></div></div></div></div></div><div><div>Expected results:</div><div><div>1. Then the recruiter should see the contact form with the following mandatory fields: email, subject and comments</div></div></div><div><div>Platform:</div><div>Mobile and desktop</div></div><div><div>Other considerations:</div><div>Usability could be improved by including a label for each field ("Email", "Subject", and "Comments") with a note indicating that these are mandatory fields. Additionally, each input element could include a placeholder with a description of the field, such as 'Enter your email address', 'Enter the subject (max 40 characters)', and 'Enter your message (max 500 characters)'.</div></div></div></div> |

QAP-9

"Manual and API QA Bootcamp" course is missing

DONE

Steps to reproduce:

1. Given the recruiter is on the candidate's portfolio web

2. When the recruiter visits the Education section

Actual results:

1. Then the recruiter sees the candidate's studies, but the following course is missing

| | | |
|----------------------------|-------------|------|
| title | institution | year |
| Manual and API QA Bootcamp | Bootcamp QA | 2024 |

Test KO

"Manual and API QA Bootcamp" is missing:

?

Education

CFGS Multiplatform Application Development

IES Pla de l'Estany - 2024

ISTQB® Certified Tester Foundation Level - Agile Tester

iSQI (International Software Quality Institute) - 2021

ISTQB Certified Tester Foundation Level 3.1

iSQI (International Software Quality Institute) - 2021

Master in Human Resources Management

CEF (Centro de Estudios Financieros) - 2011

Degree in Psychology

Universitat de Barcelona - 2009

👍

Expected results:

1. Then the recruiter should see the candidate's studies with the following information: title, institution name and the year of completion

| title | institution | year |
|--|---|------|
| Manual and API QA Bootcamp | Bootcamp QA | 2024 |
| CFGS Multiplatform Application Development | IES Pla de l'Estany | 2024 |
| ISTQB Certified Tester Foundation Level - Agile Tester | iSQI (International Software Quality Institute) | 2021 |
| ISTQB Certified Tester Foundation Level 3.1 | iSQI (International Software Quality Institute) | 2021 |
| Master in Human Resources Management | CEF (Centro de Estudios Financieros) | 2011 |
| Degree in Psychology | Universitat de Barcelona | 2009 |

QAP-8

"Automation First Project" project's link is incorrect

DONE

Steps to reproduce:

1. Given the recruiter is on the candidate's portfolio web
And the recruiter visits the Projects section

2. When the recruiter clicks on the link to "Automation First Project" GitHub's project

Actual results:

1. Then the recruiter is redirected to an incorrect project

Test KO

Clicking on the "Automation First Project" project:

Projects

Portfolio Web - QA and Web Development

Developed a responsive web portfolio using HTML5 and CSS3, with version control managed via GitHub. Managed the project with Jira following Agile Scrum methodology. Designed test cases using Gherkin and BDD principles. Executed manual functional and regression tests across desktop and mobile platforms, tracked results with a test management tool, and reported and resolved bugs using Jira.

BDD, Gherkin, Test Design, Test Execution, JIRA, Agile Methodology (Scrum), Visual Studio Code, HTML5, CSS3, GitHub

Automation First Project - QA Automation

This repository contains a testing framework for automating tests on various web applications using Selenium WebDriver, SpecFlow, and NUnit. This exercise was completed as part of a selection process for a QA automation position and marked my first experience with automation.

Selenium WebDriver, SpecFlow, NUnit, Visual Studio, C#, BDD, Gherkin, Page Object Model, GitHub
