T	Key	Summary	Status	Description
🔴	QAP-12	Comments field has a different name in Contact section	DONE	**Steps to reproduce:** 1. Given the recruiter is on the candidate's portfolio web 2. When the recruiter visits the Contact section **Actual results:** 1. Then the recruiter sees the contact form with three text boxes: one with the text "email", another with the text "subject" ar...

Test KO

Expected results:

1. Then the recruiter should see the contact form with the following mandatory fields: email, subject and comments

Platform:

Mobile and desktop

> **Other considerations:** Usability could be improved by including a label for each field ('Email*', 'Subject*', and 'Comments*')
> placeholder with a description of the field, such as 'Enter your email address', 'Enter the subject (max 40 characters)', and 'En...
